CORONA

MISSORANDUM OF UNDERSTANDING

25X1

Security Responsibility for COROMA/LANYARD

LAWYARD is a code word assigned to the program involving a particular camera in the CORONA Project system.

Present planning calls for CORONA/M shots after the LAUYARD shots, hence it is essential that the tight security precautions enforced for CORONA not be jeopardized by LANYARD.

CIA has been delegated security responsibility for CORONA and, to ensure consistency here, must have similar responsibility for LANYARD.

Access to LANYARD Information:

LAHYARD is a compartment established under Project COROMA. Persons authorized access to LUMARD must meet CORONA approval standards. They will be briefed only to the extent necessary to do their job.

Hew CORONA approvals decord escential to effectuate LAMYARD will be granted by the Security Officer COROMA Project Headquarters Security Officer/CIA).

25X1

Determination of Need to Know:

In order to preclude usuauthorized dissemination of COMONA Project information every effort must be rade to rigidly hold down the muster of new participants in CORONA necessary to the inclomentation of LUNERD. Ideally, IAHYARD would be implemented utilizing oxisting CORONA cleared persons.

Director of Special Projects, OSAF, N/Gen. Greer, will determine need to know for people in industry under contract for the LAMYARD program and DOD people directly or indirectly involved in the management or conduct of LANYARD.

Office of the Under Secretary of the Air Force will determine need to know for DDD personnel not directly involved in management or conduct of the project.

CORONA Security Officer and his representatives on the West Coast and East Coast will review such candidates and must take into consideration whether their participation in CUROHA/LAHIARD will have an edwerse effect upon continued COROMA security. In the event it is determined that jamesty to CORONA security will probably result, the CORONA Security Officer will not concur in the clearance request and so inform the Office of the Under Secretary of the Air Force and the DD/R CXA.
